

Transition to Professional Practice

Combined TPPP/Research Program Information Sheet

Honours Program Fees

Candidates selected for the Combined TPPP/Research Program will be responsible for fees associated with completing the Honours Program.

The indicative cost to undertake an Honours degree is approximately \$8945 and is based on the individual university topics that will be undertaken as part of the degree.

Students may be eligible for Commonwealth Supported Place (CSP), which is a place at a university or higher education provider where the government pays part of the student's fees. Commonwealth supported means the cost of the study is shared between the Australian Government and the student. Participants may be eligible for an Australian Government HECS-HELP loan. HECS-HELP is the government loan scheme that assists eligible Commonwealth supported students in payment their student contribution fees.

(Please note the website contains project ideas from 2024, including study plan and application form).

For course rules and further information about the Honours program, visit the Handbook [Bachelor of Health Sciences \(Honours\) webpage](#).

Transition to Professional Practice

Honours Research Topic

The Honours research topic will be agreed to between the applicant and SA Health, along with the relevant processes associated with research approval by the Flinders University Honours Supervisor.

Honours Applications

Applications for Semester 1 entry close around 14 February each year.

Study Support/Leave

Study support/study leave arrangements are to be negotiated between the candidate and the hiring Local Health Network. When considering applying for this program, candidates should consider their work capacity, life/family and study commitments.
